Washington.—The census bureau cotton report shows the crop of 1919 to be 13,232,241 bales, counting round as half bales, and including linters, compared with 13,242,131 for 1908. Included in the statistics for round cotton are 1,567,735; for seed, 15,849,000; for linters, 1,015,666 bales; round, 109,690 bales.

The gross weight of the bales is 53,565,360 pounds for 1919, compared with 52,675,360 for 1908, averaged in contrast with 52,600, compared with 1908.

Cotton estimated by ginner at delinters as remaining to be ginned and included in the statistics for 1910 is 49,448 bales.

WOMAN LED OFFICERS.

She Was Instrumental in Breaking Up Big Uffizi Still.

Rome, Ga.—Led by an irate woman, whose husband had been buying moonshine liquor, a party of revenue officers, on a raid, broke up a still on the line between Walker and Chattooga counties.

Warning had been sent by telephone from the end of the ridge and the officers escaped, leaving a half eaten dinner near the still.

Several parties are under suspicion and arrests will follow. The woman was arrested.

ELBA, ALA. MAY, 13, 1910.

King Edward's throne has been

filled; "Mark Twain's" is still

vacant.

Ovington county commissioners

have appropriated \$17,000 to

build good roads. Coffee will get

in line after a while.

We understand there is a brisk

demand for selection robes since

Sam Hays' comet has been sighted.

Some real pious brethren are hav-

ing their ascension (?) robes of

made of this fire-proof material.

Good clay and sand roads, 20ft

wide, can be built in this county

for \$500 a mile or less. A mile

of good road will add \$10,000 to

the value of the lands abutting.

The increased market value of the

lands would pay the county in

taxes several times as much as in-

terest on bonds would amount to.

If we wait for our county to be-

come thickly settled before build-

ing good roads, we will get neith-

er the roads or the settlers. Good

roads always bring good new citi-

zens, an increased demand for

farm and more farmers to work

them.

We hear a great deal just now

about the terrible cost of living,

but if we'll hark back to about

'64 we will find present prices

mere pigmies. For instance in '64

a calico dress was worth \$100; a

pair of boots \$150; meat about \$2

a pound; and as for quinine it

was so high that it was hard for

Folk to decide whether to let a

thousand dollar sick nigger die or

buy a dose.

The extremely dry weather that

has prevailed in this section for

the past six weeks is doing con-

siderable damage to young cotton

and corn, and to gardens. The

cool nights and dry winds have

caused moisture to rapidly evap-

orate until the ground is very

dry and growth in vegetation has

practically ceased.

We have a very poor opinion of

writing a platform for a candi-

date after he has been chosen by

a method that is nearer the people

than a convention. A primary is

the choosing of a candidate on

what he is and says by the peo-

ple directly. That such a candi-

date chosen, should be instructed

second time by the people who

selected him is preposterous. We

think that members of the legi-

slature and the governor should

keep the promises they made the

people in their canvasses, regard-

less of what a few bosses may

write up in a platform for them

after they are nominated. In

this way the people can rule.

Just how the people of Alabama

have obtained the impression that

the nomination of Col. O'Neal

means the return to Alabama of

the open, promiscuous and general

sale of liquor under terms of law,

in saloons and dispensaries, we

do not know. It may be a rank

injustice to Col. O'Neal. Yet such

high covering is absurd; it will

high covers the state. We've felt

that way a little. We can not

put our finger down on any thing

and say is the basis for such

presumption. Col. O'Neal's decla-

rations do not appear to mean that

indeed they appear to mean the

very opposite. Yet such belief

exists. We'll know more of what

his election means after the con-

vention next week.

An imaginary case of how ab-

surd it is for a platform to rule

and bind and govern the con-

science of officers are chosen may

well be given at this time; ninety

per cent of the members of the

legislature were nominated upon

platforms or other declarations of

their own in favor of an economi-

cal administration of the govern-

ment, and the reduction of taxes

if possible. Suppose that the

state convention at Montgomery

next week should declare in favor

of a raise in assessments and of

license taxes on buggies and

wagons in order that the treasury

might have plenty of money, so

that the "other money" clause of

the Overton Amendment might

become effective? Which should

rule and govern the members of

the legislature, their declarations

for low taxes when running, or

the platform made by a few bosses

after they were elected? The an-

swer is easy.

The Ozark Tribune says it is

opposed to nominations by pri-

maries because the plan is so

expensive that a poor man can-

not afford to become a candidate.

Primaries are rather expensive to

run, but in the candidates make

it so, and they would do the same

with any other plan. In conven-

tions money is usually spent too

freely by candidates and their

friends, and the poor man there

has about as little showing, or

less than in the primary. In

both primaries and conventions

the man with money undoubtedly

has the advantage over the money

less man, but in the former the

money is spent in buying legiti-

mate publicity, while in the lat-

ter it may not be so legitimately

spent. So far as county officers

are concerned there is no need

for any man to spend much money

as he can certainly reach all

voters by giving his time to the

canvassing the county. Until

some better plan than is now

known is devised we had best

stick to the primary.

The Alabama Optical Society,

recently in session at Montgom-

ery, will ask the legislature to

pass such laws as will prevent

fakirs and unlicensed persons from

spectacles or eyeglasses in this

state. The society also advised

an uniform price list. In other

words the Optical Society proposes

that the state law makers give

them a monopoly of the optical

business of the state, and allow

them to fix the price of their

wares. It required a lot of "gall"

to pass two such resolutions hand

in hand. All they ask is that the

legislature tie the hands of the

people so that there will be no

trouble in robbing them. If the

opticians require special protec-

tion from the state, they should

be willing to have the state fix

the price for their goods and

services.

GRAFT CONSPIRACY

More Former Pittsburg Councilmen Confess Guilt.

SAID SOME SOLD HONOR FOR \$50

It is said the District Attorney at Pittsburg, after rounding up bribe takers, will go after the bribe givers.

Pittsburg—Nine more former members of council, before the district attorney, confessed to their guilt in accepting money for their votes while members of the municipal bodies, and then, before Judge R. S. Fraser, received their immunity from the way of suspended sentences. They admitted selling their honor for from \$50 upwards.

District Attorney Blakeley, as soon as the bribe takers have been rounded up, will go after the bribe-givers. These are said to be bank officials of institutions whose names have never before been mentioned in connection with the graft of the last two years.

The "tip" has been passed to these bank men that they may come in under the "immunity" extended by the district attorney, but as they have thus far failed to avail themselves of the opportunity it is reported that some bomb shells will be dropped into the credit construction of Pittsburg when county detectives "turn the money changers" out of "their own temples" and bring them before the bar of justice.

Just Scratching of Surface.

With all that has thus far been disclosed in this gigantic municipal graft conspiracy, there is a feeling that what has been thus far accomplished is but a scratching of the surface. Twenty have thus far confessed, thirty-seven have been indicted, but have not yet confessed, and sixteen have been indicted but have not yet been indicted. It is said at the district attorney's office that before the grand jury is dismissed fifty-one business persons will be implicated. These will include not only those bribed, but the bribers.

Boston, Mass.—The national political weathercock turned democratic ward in Massachusetts, where the Old Colony section, one of the republican strongholds of the state, placed Eugene N. Pess, of Boston, one of the country's leading exponents of reciprocity with Canada, in the congressional seat of the late William C. Low.

ering. Mr. Pess accomplished what was regarded as almost a political miracle, turning a republican plurality of 11,120 into a democratic victory of 5,810.

The vote was:

Eugene N. Pess, of Boston, democrat, 12,080.

William R. Buchanan, of Boston, republican, 5,810.

It was the most overwhelming defeat that the republicans have met in Massachusetts since Governor Bates was overthrown by William L. Douglas six years ago.

WOMAN AGED 103.

Mrs. Brandon Sent Sixteen Sons to Fight in Civil War.

Monroeville, W. Va.—Mrs. Sarah Brandon, aged 103, of this city, holds the United States record as the mother of the largest number of civil war soldiers. No less than sixteen of her boys served in the battles of that war, fourteen on the Union side and two with the Confederates, while her total family was twenty-three.

Her twenty-three children are also the parents of large families. The oldest, Hiram, is eighty-nine years old, while the youngest, Evans Brandon, is seventy-two years old, and works daily in a coal mine.

Washington—The senate committee on pensions authorized a favorable report on the bill to pension Mrs. Frances F. Cleveland, widow of former President Cleveland, and Mrs. Mary Lord Harrison, widow of former President Harrison, at the rate of \$5,000 a year each.

The committee acted adversely on the bill to place former presidents of the United States on the retired list as commanders in chief of the army and navy, and pay them at the rate of \$10,000 per year, and upon their death to pay their widows, if any, \$5,000 a year.

OFFICERS FIGHT MOB.

In Effort to Rescue Prisoner Serious Cases Occur.

Sidell, La.—After a desperate battle between an officers' posse and a mob, a negro, Alex McNeill, was taken down from a tree, where he had been hanged for an attempt to murder Tom Cox, a turpentine manufacturer of Alton, La.

The negro had been hanging to the tree five minutes, and the mob was about to shoot him when the deputy sheriff with a posse arrived, cut a path through the mob and let the negro down.

During the fight many persons in the mob were shot, one or two deputies hurt, and the negro received a bullet wound in the right arm. The wound is not serious.

Several persons wounded during the fight between the posse and the mob are in a serious condition.

FIGHT EXTRADITION.

Packers Will Resist Efforts to Take Them to New Jersey.

Chicago—With the return of Ralph Crova, chief counsel for the National Packing Company, from a mysterious flight East, the fight began to prevent extradition of the New Jersey men, who are against the directors, officers and subsidiary corporations of the alleged beef trust.

A part of the plan was the sudden trip of Lemuel B. Patterson, vice-president of the National Packing Company, to New Jersey to submit to service. It is believed the fight will be made through him by throwing up every possible national technicality to protect the "big fellows."

TO TRY TO FLY ACROSS ATLANTIC.

Spanish Aeronaut is Going to Attempt Above Water, What Columbus Accomplished On It.

Madrid, May 14.—To fly across the Atlantic, following the route taken by Columbus on his first voyage of discovery, is the daring feat which will soon be attempted by Dr. Gans-Fabrice, a Spanish aeronaut. His big airship is now almost ready and it is expected that trial trips will be made next week.

The balloon is elliptical in shape, 102 feet long and forty-nine feet broad, and contains 6,000 cubic metres of hydrogen. The Nautilus takes the form of a gondola, shape like a submarine boat, twenty-eight feet long, seven feet broad, fitted with a four horse-power motor. This engine will only be used to keep the balloon in the course of the African trade winds, the aeronaut's idea being to make the voyage entirely without mechanical propulsion by keeping within the air currents, which took Christopher Columbus on his voyage of discovery.

To obviate all danger that might arise from the expansion of the gas under the influence of changes of temperature, the balloon has two envelopes between which an air current constantly circulates. Water is to be used as ballast.

The Local Newspaper.

From the Dawson News.

"The local newspaper is ever ready to assist in the promotion of every move for the improvement and benefit of its own town and community, therefore it justly deserves every favor given it."

That is true. The local newspaper will do for a community and cheerfully and liberally, what an outside paper would not think of doing. That is why appreciation and support of the home paper should be the pride of every man in the community. By "support" we mean legitimate patronage—not literal support. There are few papers in Georgia that want or would have anything in the way of charity. They do more for their communities than their communities do for them. What would Albany be without the Herald, Tifton without the Gazette and Dublin without the Courier-Dispatch? And the same may be said of any town and newspaper in the state.

The trade territory of a town is not dependent on the distance to neighboring trading points. The trade territory depends upon the enterprise of the merchants and residents of the town. If the town does not reach after the trade it will come only as fast as it has to, and will grow as it is forced to. But if the merchants go after the business in the surrounding country advertising in every possible way, and making good every word of their advertisement, trade will come from over-mountaining ridges, they will gain a reputation for being as to and it will force to the front. It is the man in the town and not altogether the men living within a certain number of miles from it that makes the town good for nothing.—Opp Messenger.

Gen. George Washington Curtis Lee, son of Gen. Robert E. Lee, is still living in Fairfax county, Va. He was a major general of cavalry in the Confederate army, succeeded his father, in 1870, as President of Washington Lee University and is still Emeritus President of that institution. He visits Washington City once a month. His son, R. E. Lee, being a lawyer there. General Lee bears almost an exact likeness to his famous father.

Executive Committee.

The big trouble with primaries is that up to date we have not been able to get angels for managers, clerks and voters, and archangels for candidates. If we had them they'd be some better. Men, being men, frequently do things that should be left undone, there being practically no penalties for wrong doing in elections in Alabama. If we can not get angels, the next best thing to improve the primaries will be a few sentences to the penitentiary—the other crowd of course. The side that complains never does wrong in primaries—eh?

The farmer who has never tried nitrate of soda on his corn should try at least a part of his crop; put in some of it and see how it does compared with others. Under all the plans it should go on corn when it is laid by, about one hundred pounds to every five thousand stalks. You should get it as soon as you can conveniently do so, for it gets scarce and out of stock a long now.

Mr. Isaac Cook, Commander of above Post, Kewanee, Ill., writes: "For a long time I was bothered with backache and pains across my kidneys. About two months ago I started taking Foley Kidney Pills and soon saw they were doing just as claimed. I kept on taking them and now I am free from backache, and the painful bladder misery is all gone. I like Foley Kidney Pills so well that I have told many of my friends and comrades about them and shall recommend them at every opportunity. City Drug Co."

Not Known Whether Death Due to Heart Failure or Fall From Mule.

Trenton, Ga.—News by telephone from Morganville, this county, says that George W. Street, a prominent farmer of the place, was found dead in the public road. Mr. Street was riding a young mule. He was subject to heart trouble, but it is not known whether that was the cause of his death or that he was thrown and killed.

I KILLED, 17 HURT

Trolley Car Runs Wild, Disastrous Results Following.

BRAKES WENT WRONG

Dashed Down Steep Grade at Full Speed in St. Louis, Spreading Death and Destruction in Its Wake Before It Was Halted.

St. Louis—Its brakes out of order, a street car dashed a quarter of a mile down a steep incline on Park avenue at full speed, spreading death and destruction in its wake before it was halted by colliding with the curb. One man was killed outright, 17 persons were injured, 7 of them seriously, and two carriages were demolished when the car was completely wrecked. John Voyce, 54 years old, was thrown beneath the wheels of the car when it struck his carriage, and crushed to death, while his companion was badly hurt.

With the motor man helplessly trying to apply the brakes, the car crashed into another carriage at Vandeventer avenue, demolishing the vehicle and injuring its two occupants. A block further on the car jumped the tracks and tipped over on its side when it collided with the curb. Seven of the passengers on the car were women and three of them fainted during the hair-raising ride. All were hurt. One man jumped out of a window while the car was running at high speed and is in a hospital with probably a fractured skull.

TILLMAN MAY RECOVER.

Physician Has Hopes That Senator May Yet Recover Faculties.

Washington—The condition of Senator Tillman, of South Carolina, who was stricken with paralysis, shows a steady improvement. His physicians announced that the paralysis is slowly disappearing and the patient has recovered his speech in a measure, and also other faculties, and is slowly gaining strength. Dr. Hekford, the chief attending physician, said that it can not yet be determined whether or not the senator will fully recover. A partial recovery, however, unless unfavorable symptoms develop within the next three days, seems to now be assured. Though it is probable Senator Tillman may remain a partial invalid for the remainder of his life.

WOLGAST DEFEATS NELSON.

In the Fortieth Round Referee Called Fight Off.

San Francisco—The big fight between Battling Nelson and Art Wolgast resulted in a defeat for Nelson. Forty rounds were fought, when the referee mercifully called the fight off to a knock-out. For twelve rounds before the fight Nelson seemed bewildered, and his blows were sent as though he held weights by his hands. From the thirteenth round Nelson could hardly see or hear, the left side of his face having lost all semblance of its former contour. He staggered and hung on to the thirteenth round he was all but out, but survived the round.

PROHI MEASURE KILLED.

Session of South Carolina Legislature Comes to Close.

Columbia, S. C.—By the operation of a resolution killing all second reading bills, the prohibition measure died on the calendar of the senate. This means that for another year the "dry" counties will have the county dispensary system. All the other counties have already voted their "yes" on local option elections. State-wide prohibition will be a issue of the subterranean campaign this summer. It was not pressed at this legislative session, because some of the prohibitionist members felt bound by a compromise of the last session to let the people decide the matter directly.

Will Be Weatherly.

James Weatherly, O'Neal leader for Jefferson county, will preside over the convention Tuesday. Bird Farmer, of Houston, having been slated for temporary chairman. Will T. Sheehan, well known as a newspaper man and political writer, will be the secretary; John W. Tomlinson, of Birmingham, is to be the chairman of the committee on resolutions. He has been for many years the Bryan leader in Alabama. The outlook is that the whole plan will be out and dried as a result general agreement, and will go through without a hitch. Everybody will be able to get away home on the night trains Tuesday.
